Remarks

Exquisite new custom home by Renew Design Build (RDB), perfectly placed on a spacious cul-de-sac lot in the heart of Leawood. Known for building homes that are anything but ordinary, RDB ensures each one has its own unique design and feel. This one spans over 5,200 square feet, with 10-foot ceilings on the main level, a vaulted, beamed great room, and oversized Andersen windows that fill the space with natural light. Every detail is designed to feel open, bright, and comfortable. The primary suite features a vaulted ceiling and ensuite bath with a freestanding soaker tub, walk-in glass shower, heated floors, and dual vanities all designed to blend luxury with everyday function. Upstairs, you'll find three additional bedrooms, each with its own ensuite bath, plus a loft space that's perfect for homework, lounging, or late-night hangouts. The finished lower level adds even more room to gather, with a fifth bedroom, exercise room, game area, and a second living space complete with a wet bar. A tech-ready package with pre-installed video, network, and security wiring is already in place. The three-car garage adds plenty of storage and flexibility, and while a pool isn't included, the layout was designed to accommodate one in the future. Check out the full list of features in the supplements to see all that's
